

“Promoting Innovation in Maryland Agricultural and Resource-Based Business”

Instructions for the 2021 (FY 2022) Maryland Value Added Producer Grant (Capital Assets Option)

Farms and other businesses wanting to expand or diversify their operations face major challenges in paying for the necessary capital equipment or improvements to real property. For many producers of Maryland grown food/feed/fiber products, the up-front costs are unaffordable. For many Maryland producers, a small amount of matching equity capital could make a huge difference in their business success. MARBIDCO’s 2021 Maryland Value Added Producer Grant (Capital Assets Option) Program is designed to meet this need. This program will help Maryland producers and qualifying food/feed/fiber processors to purchase new equipment or construct facilities so that they can engage in value added production, enhance revenue generation, and create new job opportunities.

Program Description

1) MARBIDCO has a mission to assist Maryland’s farm, forestry, and seafood businesses with achieving profitability and sustainability, promoting rural entrepreneurship, and nurturing emerging food and fiber markets. **MARBIDCO will offer grants of between \$2,500 and \$10,000, distributed on a competitive basis**, for capital asset projects designed to help farmers, forest product operators, and seafood and livestock processors to expand or diversify their business operations. (NOTE: For hemp processors who are not farmers, eligibility for a grant will be contingent on the evidentiary showing of 51% of the feedstock being Maryland-grown.) The match required from the farm or rural business must be equal to or greater than the amount requested from MARBIDCO. A total of \$125,000 is available for distribution in this grant funding cycle within three distinct divisions (General Agricultural Production, up to \$55,000; Forestry/Livestock/Seafood Processing, up to \$35,000; and Hemp Processing up to \$35,000.)

NOTE: The maximum cumulative amount of grant funding a single applicant or business ownership may receive from this program is \$30,000, and from all MARBIDCO grant incentive programs (not including PAEGF or RELIEF programs), the cap is \$50,000. Additionally, a previous MARBIDCO grant must be closed out (i.e., there are no funds remaining) before an applicant can be considered for a new grant award.

2) The application deadline is 4:00 p.m., on Thursday, September 23, 2021. Applications received in the mail with a Saturday, September 18, 2021 postmark will also be accepted. Late applications will not be accepted. Grant announcements should be made about mid-November 2021.

Eligible applicants must be a crop producer, agricultural cooperative, seafood, or livestock processor, or primary or secondary timber products processor, and **have been in business for a minimum of two years**. Hemp fiber processors may be eligible under certain conditions and must have been in business in Maryland on or before June 30, 2020. In addition, applicants must be making a product that is “value added”. A product that is value added has in incremental value realized by the producer or processor as a result of: 1) change in physical state; 2) differentiated production or marketing; 3) product segregation; and 4) economic benefit realized from the production of farm- or ranch-based, rural community-based biomass energy. MVAPG-CAO funds and matching funds must be used for projects that are defined as capital assets by MARBIDCO, and that have a useful life of seven years or more.

Matching funds are required. Matching funds must be at least equal to the amount of grant funds requested and are subject to the same use restrictions as grant funds. Applicants must demonstrate that eligible matching funds are available at the time of application. Matching funds must be provided by either the applicant, or by a third party, in the form of cash or a commercial lender loan commitment. Applicants that are awarded grants may not change the source, type, or amount of matching funds proposed in their applications without prior written approval from MARBIDCO.

Applicant requirements

- Applicant must submit a completed application form (please, no binders).
- Provide proof of matching funds.
- Applicant must submit a complete federal tax returns, including all schedules, for the most recent year (2020 in most cases).
- Applicant must agree to a site inspection at the discretion of MARBIDCO.

- **Applicant must provide a detailed business plan to demonstrate how the production facility or business operation** will remain ongoing for at least seven years and show what impact the improvements will have on his or her business via projected increased sales, retained or additional jobs, etc. The business plan must also address the following:
 - Applicant must provide detailed project information including the project costs and market(s) to be served.
 - Applicant is responsible for the appropriate government licenses and permit(s).
 - Applicant is responsible for securing and complying with all necessary zoning, building and other permits as required prior to receiving grant.

Eligible expenses are capital assets which will help farmers, forestry operations, and seafood and livestock processors to diversify their business operations. Examples include, but are not limited to, the following:

- Production buildings and major fixtures
- Livestock or seafood processing facilities
- Fruit, vegetable, or timber processing facilities
