Resource-Based Business”*

**Instructions for the 2009 Maryland Value Added Producer Grant**

**Program Description**

The Maryland Value Added Producer Grant Program (MVAPG) was established to make grants available to those pursuing support from the U. S. Department of Agriculture Value Added Producer Grants Program (USDA VAPG). MARBIDCO was created with a mission to assist Maryland’s farm, forestry, and seafood businesses with achieving profitability and sustainability, promoting rural entrepreneurship, and nurturing emerging food and fiber markets. **MARBIDCO will make grants available to eligible applicants to provide up to 15% of the matching funds requirement under the USDA VAPG.** These funds will be required to be used for planning or working capital purposes in accordance with USDA regulations. Eligible purposes include determining appropriate marketing techniques and creating business plans or paying operating expenses before a business has sufficient cash flow from operations.

Eligible applicants must be an independent producer, agricultural producer group, farmer or ranch cooperative, or majority-controlled producer-based business venture (all defined terms under federal regulations). In addition, applicants must be making a product that is “value added”. A product that is value added has in incremental value realized by the producer as a result of: 1) change in physical state; 2) differentiated production or marketing; 3) product segregation; and 4) economic benefit realized from the production of farm- or ranch-based renewable energy.

Under the USDA VAPG all applications will be screened for eligibility. The federal grant application submission deadline is November 30, 2009. Once the application has been determined to be eligible the application will be competitively rated in a nationwide competition. Projects or ventures must be determined to be economically viable and sustainable. The applications will then be screened for technical feasibility of the value added activity, the overall ability to operate efficiently, improvement to the rural economy, qualifications of personnel performing the proposed task and a demonstrated track record of performing similar activities, and a plan of work that incorporates the appropriate tasks to meet the stated objective. The USDA VAPG applications with the highest ratings will be funded first.

Applicants seeking to receive MARBIDCO matching funds for the USDA VAPG must submit an application to MARBIDCO at least two weeks prior to the federal deadline. The MARBIDCO deadline is 4:00 p.m. on November 16, 2009. Applications received in the mail with a November 13, 2009 postmark will also be accepted. Applicants must attach a complete, or nearly complete, copy of their federal application form to MARBIDCO as part of the submission including all required attachments. All Maryland Value Added Producer Grant (MVAPG) applicants meeting the MARBIDCO requirements will receive a commitment letter of matching funds to be included with their federal applications. The MVAPG commitment amount cannot exceed 15% of the required non-federal match, and it may be for a lesser amount depending on the quantity of MVAPG applications that are received and the pool of available MARBIDCO funds. MVAPG monetary awards will only be provided to those applicants that are actually successful in obtaining USDA VAPG awards.
